Dear Sir/Madam

Gas Mains Replacement – King Street

I am writing to update you about our work to replace and upgrade the old large diameter metal gas mains in King Street between the Hammersmith Gyratory and the junction with Dalling Road. The extent of the work is shown on the map overleaf.

The work will be carried out in sections and we will be starting on Monday 1 July and expect to complete it by February 2020. We will not be working between early December and early January.

Although we do not need to close King Street, traffic will be restricted to one lane and we may need to close the bus stop next to Boots. We are discussing this with Transport for London to make suitable alternative arrangements if possible. There will also be a need to close the cycle lane for part of our works.

We need to close Leamore Street at its junction with King Street and this will be for approximately two weeks. There will be a signed diversion to King Street via the Hammersmith Gyratory and to maintain residents and businesses access/egress onto Leamore Street it will be made two way. Vehicles will only be able to enter and leave via Glenthorne Road.

We are working with the London Borough of Hammersmith and Fulham to minimise the impact of our work. All shops and businesses will be open as usual.

Our gas mains replacement programme is crucial to providing safe and reliable energy to homes and businesses and will reduce the amount of unplanned work to repair ageing gas pipes in the future. We are aware that our work may affect you and we are doing all we can to keep the inconvenience to people who work, live or travel through the area to a minimum.

If you would like more information, please call or email our Community Relations Team on 0800 389 8261 or info@communityrelations.co.uk.

Yours faithfully,

Polly Gourlay
Project Manager (tRIIO)
